I have been a resident of Birchcliff since 1996. For many years my wife and I toured around Sylvan Lake looking and wishing that some day we would have a lot. It became true in 1996 when we found a lot with an old 2X4 sign saying it was for sale. We appreciated the history that came with the lot – the lot had been in their family for many years. We love the nature around us and how our family can come and relax. Birchcliff is our primary residence and we try to keep up on events and news in the area.

Career Profile;

Throughout my career, in excess of forty years in the Oil & Gas sector, Real estate, Agriculture and Technology, I have numerous successes resulting in significant growth and bottom line impact. These achievements were gained in a diversity of roles from Project Engineering Technologist, to Construction Superintendent, to Operations Manager, to Chief Executive Officer and President, to Owner.

These achievements were gained in areas such as;

- President & CEO, took a company from 23 employees to 650. Expanded bases across Western Canada; sold in 2009.
- President of a commercial real-estate company. Started with one commercial building in 1997 and grew the company to 12 commercial properties before selling in 2012.
- Principal Owner/advisor of Fleet Management Software Provider. Company was sold in 2012.
- President of Birchcliff Partners LP which identifies new business opportunities and acquisition targets. Presently have invested in several small start-up companies and play a key role in mentoring management and assist in strategic business planning.
- Petroleum Services Association of Canada. Chairman of the Board of Directors from 2007-2008.
- Chaired the annual PSAC Stars Charity Gala in 2006 with funds raised in excess of \$500K.

With this background, I am confident that I can bring useful experience. I have enjoyed the last 18 months being on counsel. I have learned a lot with more to learn moving forward.
