

My name is Jeff Ludwig. Our family has resided as winter and summer residents in Norglenwold for the past 22 years, as well as sharing our time in Red Deer. We've enjoyed our retreat to "the cabin" as well as our opportunities to be part of a bigger social neighborhood forging close bonds with many near and dear neighbors.

I am recently retired, after 35 years in the private sector, and I feel I have both the time and the experience to help our community manage it's growth in a fiscally responsible manner as well as a sustainable one.

We live in a unique community with many neighborhoods; each with their own wants and needs. This presents a real challenge, but not an insurmountable one. I believe that with the proper planning, foresight, and negotiation, we can find common ground to achieve many of these goals.

Necessity dictates that our community has to grow in order to ensure our viability. While this is true, it also brings with it another set of challenges that have to be managed. We have to be proactive to ensure that the things we put in place today are sustainable and favorable in the long run.

I am excited about the possibilities and I am asking for your vote to be one of your councilors.

Thank you
