JUNE 2022 NEWSLETTER: Summer Village Norglenwold

#### Land Use Bylaw:

Council has reviewed the Draft Version of the Land Use Bylaw prepared by our consultants, Municipal Planning Services. This was prepared after first consultation, and then after a public town hall session and input from numerous residents. Council has approved and passed first reading of this bylaw. There will be a public hearing on June 24, 2022. After that council will do a second and then a third reading of the bylaw before adopting it. The draft version is on the Norglenwold website and we ask you review it and provide any feedback to administration.

#### Municipal Enforcement and Community Watch:

Recently the Joint Services Committee of the Sylvan Summer Village met with the RCMP to discuss policing and services in our community. The RCMP has confirmed that a new system of using 5 constables to police the summer villages will be in effect this year. One constable will be assigned to each summer village, and barring any emergency response, each summer village will be visited by the RCMP at least once each day. The RCMP will provide a presence, and will be able to ticket traffic infractions, parking infractions and set up stops and drinking and driving checks stops in the community. You can contact the below number for non emergency calls. Otherwise 911 for emergency calls.

Municipal Enforcement Main number Sylvan RCMP: 403 858-7200

The RCMP welcomed our community watch program and asked if any residents who have private video surveillance on their property would be interested in the Crime CAPTURE program (Community Assisted Policing Through Use of Recorded Evidence). Residents would sign up and inform the RCMP of the locations of the cameras they have. The RCMP would create a map. That way if a crime occurs in a certain area, the RCMP may contact a member in that area and ask the resident to release camera footage which may help to solve crimes. you can register your camera at: [CRIMECAPTURE.CA](https://www.crimecapture.ca).

Council has directed administration to provide 5 signs which have been ordered for the SVN stating that this is a Community Watch Area.

#### Docking and Mooring:

Administration has received a number of complaints regarding the storage of docks and lifts on municipal open spaces, and the installation of docks in the same areas. Particularly in the road allowances where stairs have been built. The installed docks make those stairs only usable to the dock owners rather than provide access for all residents. Council is committed to creating an Open Space Plan which will also deal with the dock and mooring situation in Norglenwold. Please provide your input to administration.

This will commence once the land Use Bylaw rewrite is complete.

1913 Days:

The Town of Sylvan Lake is holding this event June 10-12 to commemorate the incorporation of the town of Sylvan Lake. Norglenwold has been asked to be involved in this celebration, but we cannot this year due to short notice. Is there any community interest to become involved in this festival next year?

Nav Rattan: Councillor Summer Village Norglenwold
