

Stuart McKellar

I have a deep connection to Sylvan Lake having been part of the community for more than 40 years, the last three in Norglenwold. I am married to Ilse, an elementary school teacher, and we have recently become empty-nesters, aside from our dog Maci.

For the past 20 years, I have held a number of senior level positions at a financial institution leading a variety of professional teams. I have served as a board member for a not for profit community organization, am a director of a wealth management enterprise, and recently assisted in the founding of a chapter of the Governance Professionals of Canada. I am known for developing strong relationships, my curiosity to understand people and issues, and for being creative, yet pragmatic, in my approach to problem solving.

I support the Summer Village of Norglenwold being a community of neighbors who are able to enjoy the lake, while protecting the environment for future generations. I recognize that some growth is inevitable and that properly accommodated, growth will ensure the continuance of the Summer Village and the lifestyle that we all enjoy.

I hold a BA from the University of Calgary, and an LLB from the University of Alberta. I was awarded the Queen's Counsel designation by the Province of Alberta in 2014.
